Program Information

Jointly sponsored by:

American Society of Anesthesiologists   and   SEA Society for Education in Anesthesia

Target Audience
This meeting is intended for medical students, residents and faculty physician educators in anesthesiology and related disciplines who are interested in how technology, economics and legislation impact medical and anesthesia education, as well as how to improve teaching skills.

About this meeting
The purpose of this annual meeting is to educate and share information that will enable anesthesia educators to provide the highest level of education and improve patient outcomes.

Opportunities for questions and answers will be provided at the conclusion of each presentation.

Registration
Registration for the 2011 Spring Annual Meeting includes continental breakfasts, coffee breaks, one luncheon, SEA's President's Reception, all workshops and the program syllabus on CD. Note that all fees are quoted in U.S. currency. Nonmember registration fee includes SEA Active Membership Dues for the remainder of 2011.

Member registrants must have 2011 dues paid in order to receive the member discount. Registration for the meeting can be made either by using the registration form in this brochure or through the SEA's Web site at www.SEAhq.org.

Registration Deadline
The registration deadline for the meeting is May 3, 2011. Registrations received after May 3, 2011, will not be processed until on-site registration opens on Wednesday, June 1, 2011, at 5:00 p.m. Individuals who wish to register for the meeting after May 3, 2011, should do so at the meeting.

CME Accreditation
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the American Society of Anesthesiologists and the Society for Education in Anesthesia. The American Society of Anesthesiologists is accredited by the ACCME to provide continuing medical education for physicians.

AMA
The American Society of Anesthesiologists designates this live activity for a maximum of 27.25 *AMA PRA Category 1 Credit(s)*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Learning Objectives
After attending the SEA meeting, learners should be able to:
- Discuss the goals of the ACGME Milestone Project;
- Implement leadership techniques in the workplace;
- Outline a strategy to become published in the educational literature;
- Compare the strengths and limitations of distance and face-to-face learning;
- Describe key elements to planning and leading an effective workshop;
- Prepare a portfolio demonstrating teaching scholarship;
- Assess the need for additional education to attain professional goals;
- Design a meaningful PPAI program for use in MOCA.

Disclaimer
The information provided at the above CME activities is for continuing medical education purposes only and is not meant to substitute for the independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition.

Commercial Support Acknowledgement
The CME activity is supported by educational grants. A complete list of supporters will be published in the course syllabus.

Disclosure
The American Society of Anesthesiologists and the Society for Education in Anesthesia adheres to ACCME Essential Areas, Standards, and Policies regarding industry support of continuing medical education. Disclosure of the planning committee and faculty's commercial relationships will be made known at the activity. Speakers are required to openly disclose and limitations of data and/or any discussion of any off-label, experimental, or investigational uses of drugs or devices in their presentations.
Resolutions of Conflicts of Interests
In accordance with the ACCME Standards for commercial support of CME, the American Society of Anesthesiologists and the Society for Education in Anesthesia will implement mechanisms, prior to the planning and implementations of CME activity, to identify and resolve conflicts of interest for all individuals in a position to control content of this CME activity.

Special Needs
The Society for Education in Anesthesia fully complies with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any attendee in this educational activity is in need of accommodations, please contact SEA at (847) 825-5586.

Cancellation Policy
Cancellations received through May 3, 2011, will receive a full refund. Cancellations received from May 4-15, 2011, will receive a refund of 80 percent. Refunds will not be given after May 15, 2011. Cancellation of a meeting registration must be submitted in writing. Refunds will be determined by date written cancellation is received at the SEA office in Park Ridge, Illinois.

Workshop Objectives

Strategic Career Planning for the Academic Anesthesiologist
Upon completion of this learning activity participants will be able to:
1. Recognize the key steps for personal strategic career planning as an academician.
2. Identify the components of an academic development plan.
3. Use reflective questions as steps towards developing a personal learning plan.

How To Develop a Comprehensive Simulation Curriculum: The Role of Simulation Throughout a Four Year Residency
Upon completion of this learning activity participants will be able to:
1. Recognize the role of simulation education throughout anesthesia residency training, including preclinical and subspecialty rotations.
2. Understand the importance of collaboration with subspecialty faculty in order to develop a truly integrated simulation curriculum.
3. Learn to develop effective simulation scenarios based on critical events pertinent to the anesthesiology subspecialties.
4. Learn to develop standardized evaluation tools to assess the effectiveness of your curriculum.
5. Learn to develop simulation educators internally through a resident educator mentoring program.

Podcasting 101: How to Create Engaging Educational Podcasts to Enhance Resident Learning Using Simple Computer Programs
Upon completion of this learning activity participants will be able to:
1. Describe what is a podcast.
2. Indicate how podcasts can be used to teach concepts and principles of anesthesia to students online.
3. Develop a lesson plan for the podcasting format.
4. Design and record a podcast and publish it to the internet.
5. Assess how your residency program can implement podcasting into its curriculum.

Journal Clubs in a Milestone World
Upon completion of this learning activity participants will be able to:
1. Use journal club as a vehicle to achieve ACGME milestones necessary for residency training.
2. Identify journal club features that enhance attendance and longevity.
3. Define challenges associated with developing a successful journal club.
4. Design journal club formats that overcome recognized challenges.
5. Propose new methods of incorporating ACGME milestones into journal club.

Milestones-Based Educational Strategies to Promote Clinical Expertise
Upon completion of this learning activity participants will be able to:
1. Evaluate the level of expertise in the learner [milestone reached].
2. Learn multiple educational strategies that promote clinical expertise based on the milestones.

Simulation Debriefing: "Milestones" and Consistency
Upon completion of this learning activity participants will be able to:
1. Describe several approaches to debriefing during simulation-based teaching.
2. Identify strengths and limitations of different debriefing techniques.
3. Demonstrate effective debriefing skills in multiple clinical situations.
4. Describe methods for instructors to improve their debriefing skills.
5. Identify opportunities to apply debriefing skills in clinical teaching.

Milestones Development in Anesthesiology
Upon completion of this learning activity participants will be able to:
1. To discuss and analyze the milestones and their development for anesthesiology thus far. Participants will organize and assemble goals for the Task Force to complete. Overall, attendees will plan an outstanding milestone product for anesthesiology.

Documenting Academic Achievement: Preparing an Effective CV & Educator Portfolio
Upon completion of this learning activity participants will be able to:
1. Identify the content and uses of the curriculum vitae and educator portfolio.
2. Document the important components of your educational activities.
3. Discuss indicators of excellence in an educator's performance.
4. Discuss formative role of educator portfolio as a tool for reflection and career planning.
5. Understand Metrics and how to use it to obtain professional advancement.

Moodle 101: How To Teach Students Online Using a Simple Web-Based Program
Upon completion of this learning activity participants will be able to:
1. Describe what is a learning management system (LMS).
2. Indicate how LMSs can be used to teach residents online.
3. Develop an online lesson plan using the Moodle LMS.
4. Design an online knowledge assessment activity using the Moodle LMS.
5. Assess how your residency program can implement LMSs and online learning into its curriculum.

Promoting Cultural Change by Developing Faculty…
Upon completion of this learning activity participants will be able to:
1. Create an analysis of driving and restraining forces to make a change in their department.
2. Develop a plan to promote faculty development in their department.
3. Apply a template to ascertain the goals for an individual and departmental faculty career development.
4. Create a program targeted and tailored to develop junior and midcareer faculty for their professional development.

Integrating Simulation in Curriculum
Upon completion of this learning activity participants will be able to:
1. Describe the basic framework of curriculum development.
2. Discuss strategies for overcoming operational obstacles to incorporating simulation-based curricula.
3. Incorporate the variables of audience and educational goals specific to the creation and delivery of simulation curricula.

Methods to Madness: Expanding Educators' Repertoire of Teaching & Instructional Strategies
Upon completion of this learning activity participants will be able to:
1. Discover and describe 5 new educational methods.
2. Align each new method with an educational objective.
3. Gain new teaching methods for their own teaching objective (problem area in their own department).
4. Identify and commit to piloting one new teaching method in their department.
5. Evaluate the pros and cons of using this faculty development tool in their own department.

Effective Mentoring: The Nuts and Bolts
Upon completion of this learning activity participants will be able to:
1. Describe the components of effective mentoring.
2. Discuss the limitations of mentoring relationships.
3. Assess/Determine the type of mentors that may assist in your career development.
4. Create a strategy to select a mentor for career development.
5. Discuss tools that may be useful to enhance success of mentoring.

Performance Assessment Tools: A Product Development Workshop
Upon completion of this learning activity participants will be able to:
1. Discuss various assessment strategies used in simulation.
2. Describe the process of assessment tool development, testing and implementation.
3. Create and apply two different assessment tools.

Workshop Objectives

Program Directors Roundtable
Upon completion of this learning activity participants will be able to:
1. Define current challenges facing residency Program Directors.
2. Examine program "best-practices."
3. Formulate plans for individual program improvement based on the combined experience of others.

Navigating the Information Superhighway - How to Find the Information You Need
Upon completion of this learning activity participants will be able to:
1. Identify the different medical databases available.
2. Describe the pros and cons of each database.
3. Able to formulate a clinical question.
4. Devise an effective search strategy to answer the question.

Affective Disorders as a Barrier to Resident and Attending Development
Upon completion of this learning activity the participants should be able to:
1. List the incidence of depression and affective disorders in resident and attending physicians.
2. Recognize symptoms of affective disorders in resident and attending physicians.
3. Cite studies showing connections between affective disorders and medical errors in resident and attending physicians.
4. Describe how an impairing affective disorder can be a barrier to professional development of both resident and attending physicians.
5. Identify a colleague or resident with an impairing affective disorder.

Journal Clubs in a Milestone World
Upon completion of this learning activity participants will be able to:
1. Use journal club as a vehicle to achieve ACGME milestones necessary for residency training.
2. Identify journal club features that enhance attendance and longevity.
3. Define challenges associated with developing a successful journal club.
4. Design journal club formats that overcome recognized challenges.
5. Propose new methods of incorporating ACGME milestones into journal club.

Integrating Simulation into Curriculum
Upon completion of this learning activity participants will be able to:
1. Describe the basic framework of curriculum development.
2. Discuss strategies for overcoming operational obstacles to incorporating simulation-based curricula.
3. Incorporate the variables of audience and educational goals specific to the creation and delivery of simulation curricula.

Strategic Planning: Balancing Your Life While Having an Academic Career
Upon completion of this learning activity participants will be able to:
1. Compare and contrast Wellness vs Burnout Behaviors.
2. Recognize the key steps for creating balance in your life.
3. Apply reflective survey to identify steps towards developing a personal wellness plan.
4. Compare and contrast tools for enhancing mindfulness.
5. Discuss strategies how to bring wellness to your department.

Simulation for MOCA: Debriefing Challenges and Strategies
Upon completion of this learning activity participants will be able to:
1. Identify characteristics of a MOCA participant that can present challenges during debriefing.
2. Discuss techniques and strategies for effective debriefing for practicing anesthesiologists.
3. Practice debriefing skills using video review and role play.

Interesting San Antonio Facts

- **Popular:** More than 26 million people visit San Antonio each year. The city is centrally located between the east and west coasts.

- **Venerable:** One of the American West's oldest cities settled in 1731 by sixteen Spanish families from the Canary Islands. San Antonio's rich history surfaces in its architecture, neighborhoods, food, culture and traditions. The King William neighborhood is one of the oldest historical districts in Texas.

- **Urban:** Hundreds of hotels, restaurants, night spots and shops line the city's urban core including the magical River Walk below street level.

- **Green:** Sixty-eight miles of urban hike and bike trails and over 11,000 acres of urban parks. The U.S.'s second oldest park, San Pedro Park, is in San Antonio.

- **Sunny:** Three hundred days of sunshine annually and an average temperature of 70 degrees.

- **Affordable:** The most affordable city in America, for both those who live here and those who visit.

- **Artsy:** One of the top 25 cities in the country for the arts, according to American Style magazine. Travel Smart magazine ranks San Antonio as one of the most culturally fascinating cities in the U.S.

- **Safe:** One of America's safest and best "walking" cities.

- **Kid Friendly:** SeaWorld® San Antonio is the world's largest marine life adventure park, Schlitterbahn, nearby, is the world's best water park according to the Travel Channel, and Six Flags® Fiesta Texas® is one of the most visited attractions in the state.

- **Top Visitor City:** Travel + Leisure named San Antonio as one of America's favorite cities. San Antonio has some of the state's most visited attractions and festivals: The Alamo (1), The River Walk (2), SeaWorld® San Antonio (4), Six Flags® Fiesta Texas® (13); San Antonio Zoo (14); Fiesta San Antonio (23).

- **Top Restaurant:** Le Rêve was named Texas' best restaurant and one of the top 50 restaurants in America by Gourmet magazine. Biga on the Banks was named one of America's Best Restaurants by Gourmet magazine.

- **Top Golf:** More than 40 public and private golf courses. Tapatio Springs Golf Resort has ranked as a Texas top ten spot for over a decade. Toughest golf shot: Pecan Valley golf Course, No. 18, Par 4, 18 yards.

- **Top Zoo:** Third largest zoo in the U.S. with over 3,500 animals. the San Antonio Zoo also shelters more than 230 endangered species.

Advance Education Seminar (AES)* *limited to 20 participants*

The Clinician-Educator-Leader

Clinicians as effective leaders have been shown to improve patient outcome, group function, and organizational performance. Leadership skills such as: team building, negotiation, conflict resolution, and change agency are acquired through education and experience. Medical Educators have a unique position as innovator and teachers of future clinician-leaders. This year's Advance Education Seminar will concentrate on leadership theory, skills, and practice to prepare medical educators for these roles.

This all day workshop is designed specifically for anesthesiologists who wish to improve their teaching and academic teams through effective leadership. Attendees in small group discussions and activities will examine and experience several different modalities for assessing and finessing the components that make successful leaders.

Quotes from previous attendees:
- Very well organized, planned and executed
- The small group breakout sessions allowed wonderful practice and application of objective skills
- Exciting physician presenters that interact well together as teachers - serve to motivate educators in the real world
- Enthusiasm that is contagious
